

Privacy Policy for RateMyJumper

Last updated: 06/03/2026

RateMyJumper is operated by **Wolverine Interactive LLC** ("RateMyJumper," "we," "us," or "our"). This Privacy Policy explains how we collect, use, disclose, and protect information when you use the RateMyJumper mobile app and related services.

By using RateMyJumper, you agree to the practices described in this Privacy Policy.

1. Information We Collect

Account Information

When you create an account, we may collect:

- Your Apple ID name and email address, including an Apple Private Relay email address if you use Hide My Email
- Your chosen @handle
- Your display name
- Your profile photo URL
- Authentication identifiers associated with your account

Profile and User Content

RateMyJumper is a social and competitive app. We collect information you create, upload, or interact with in the app, including:

- Jumpshot videos you upload
- Silhouettes or derived visual outputs created from your uploaded videos
- AI-generated biomechanical features, such as joint angles, release timing, and other pose-related measurements
- AI-generated scores or ratings
- Comments
- Votes you cast
- Daily showdown votes
- Friend requests and social interactions
- Reports submitted about content or users

Some profile information, uploaded shots, scores, votes, comments, rankings, tiers, and other app activity may be visible to other users depending on the feature and your app settings.

Device and App Information

We may collect information about the device and app environment you use, including:

- iOS version
- Device model
- Firebase Cloud Messaging push notification token
- Advertising identifier, including IDFA, only if you allow tracking through Apple's App Tracking Transparency prompt
- App version
- General diagnostic and performance information

Usage Data

We collect app usage and interaction data, including events such as:

- Account creation
- Sign-in
- Uploads
- Votes
- Comments
- Tier changes
- Leaderboard activity
- Daily showdown activity
- Mini-game activity
- Other app interactions and feature usage

Crash and Diagnostic Data

We use crash reporting tools to collect crash logs, stack traces, device information, and related diagnostic data to help us identify bugs and improve app stability. We do not intentionally include personal content in crash reports, but crash reports may contain technical information related to your app session.

Inferred and Generated Data

We generate certain information based on your activity in the app, including:

- ELO rating
- Tier
- Win rate
- Streak counts
- Matchup history
- Ranking history
- AI-generated scoring outputs
- Other performance, gameplay, or reputation-related metrics

2. How We Use Information

We use the information we collect to:

- Create and manage user accounts
- Operate RateMyJumper's core features
- Display profiles, uploaded shots, leaderboards, tiers, ratings, votes, and rankings
- Match users and shots in voting, showdown, and ranking systems
- Process jumpshot videos to create silhouettes, pose estimates, biomechanical measurements, and AI-generated scores
- Run daily showdowns, mini-games, friend features, and other competitive features
- Send push notifications, including vote alerts, daily showdown reminders, friend activity, and tier-up celebrations, if you opt in
- Show ads through Google AdMob
- Show personalized ads only when permitted by your device settings and consent choices
- Show non-personalized or contextual ads when personalized ad tracking is not permitted
- Detect, prevent, and respond to abuse, spam, fraud, cheating, or policy violations
- Review reports about users, shots, or comments
- Diagnose crashes, fix bugs, improve performance, and develop new features
- Maintain the safety, security, and integrity of the app

We do not use AI-generated biomechanical features to identify you as a person. These features are used to provide scoring, ranking, feedback, comparison, and app functionality.

3. Video Processing and AI Features

When you upload a jumpshot video, we may process that video using automated tools to generate silhouettes, pose estimates, biomechanical measurements, and AI-generated scores.

Video processing may be performed using third-party cloud infrastructure, including Modal Labs. Videos are processed for the purpose of operating RateMyJumper's analysis, scoring, and ranking features.

We may store the original uploaded video, derived silhouettes, generated pose data, scoring outputs, and related metadata as part of your account and app activity unless you delete the content or delete your account.

4. Third-Party Services

We use third-party service providers to operate and improve RateMyJumper. These providers may process information on our behalf.

Apple

We use Apple services, including **Sign In with Apple**, for authentication and account creation.

Google and Firebase

We use Google and Firebase services, including:

- Firebase Authentication
- Firebase Firestore
- Firebase Cloud Storage
- Firebase Analytics
- Firebase Crashlytics
- Firebase Cloud Messaging
- Firebase App Check
- Google AdMob

These services help us store data, authenticate users, deliver push notifications, analyze app usage, diagnose crashes, protect backend systems, and display ads.

Modal Labs

We use Modal Labs for server-side video processing, including silhouette generation, pose extraction, and related AI processing.

Advertising Partners

We use Google AdMob to display ads. If you grant tracking permission through Apple's App Tracking Transparency prompt, AdMob may use your advertising identifier and related data to provide personalized ads. If you do not grant tracking permission, ads may still be shown, but they will be non-personalized or contextual.

5. How We Share Information

We may share information in the following ways:

- With service providers that help us operate the app, including cloud hosting, authentication, storage, analytics, crash reporting, notifications, advertising, and video processing providers
- With other users, when you post content, create a profile, upload shots, comment, vote, appear on leaderboards, participate in showdowns, or otherwise use social or public features
- To enforce our rules, investigate abuse, prevent fraud, or protect the safety and integrity of RateMyJumper
- If required by law, legal process, or a valid government request
- In connection with a merger, acquisition, financing, sale of assets, or similar business transaction involving Wolverine Interactive LLC

We do not sell your personal information for money.

Depending on your location and privacy laws, certain advertising or analytics practices may be considered "sharing" or "targeted advertising." You can control tracking permission through your iOS settings.

6. Your Choices and Rights

View and Manage Your Account

You can view and manage certain account information in the app through your **Profile** and **Account** screens.

Delete Your Account

You can delete your account in the app by going to:

Settings → Account → Delete Account

When you delete your account, we will delete or de-identify your user document, uploaded shots, comments, votes, storage files, and authentication identity within 30 days, unless we need to retain limited information for security, fraud prevention, legal compliance, or legitimate operational purposes.

Some historical effects of your activity, such as prior ELO effects on other users' ratings, may remain in aggregated or non-user-facing form because they cannot reasonably be reversed from the ranking system.

Delete Uploaded Content

Where available, you may delete uploaded shots or other content directly in the app. Deleted content may be removed from active systems immediately but may remain in backups for a limited period.

Withdraw Ad Tracking Consent

You can withdraw tracking permission at any time by going to:

iOS Settings → Privacy & Security → Tracking → RateMyJumper

Opt Out of Notifications

You can disable push notifications at any time by going to:

iOS Settings → Notifications → RateMyJumper

Report Content or Users

You can report abusive content, inappropriate shots, comments, or users through the in-app reporting tools.

Request Data Export

You may request a copy of your data by emailing:

support@wolverineinteractive.com

We will respond to data export requests within 30 days.

7. Data Retention

We retain information for as long as needed to operate RateMyJumper, provide the service, maintain security, comply with legal obligations, resolve disputes, and enforce our rules.

Our general retention practices are:

- **Active accounts:** Account, profile, content, ranking, and gameplay data may be retained while your account is active.
- **Deleted accounts:** Account data and user content are removed from active systems within 30 days and cleared from automated backups within 60 days.
- **Vote and matchup history:** Some ranking and matchup history may be retained in aggregated or de-identified form.
- **Crash data:** Crash and diagnostic data may be retained for up to 90 days.
- **Analytics data:** Analytics data may be retained for up to 14 months, unless configured otherwise.

We may retain limited information longer if necessary for security, fraud prevention, abuse prevention, legal compliance, or dispute resolution.

8. Children's Privacy

RateMyJumper is not intended for children under 13. The app is age-rated **12+** on the App Store.

We do not knowingly collect personal information from children under 13. If you believe a child under 13 has created an account or provided personal information to RateMyJumper, please contact us at:

support@wolverineinteractive.com

If we learn that we have collected personal information from a child under 13, we will take steps to delete that information.

9. Security

We use reasonable technical and organizational measures to protect information, including:

- Encryption in transit using TLS
- Firebase's default encryption for data at rest
- Authentication through Sign In with Apple and Firebase Authentication
- Authentication tokens stored using iOS Keychain where applicable
- Firebase App Check to help protect backend services from unauthorized non-app callers
- Access controls for backend systems

No method of transmission or storage is completely secure, and we cannot guarantee absolute security.

10. International Users

RateMyJumper is operated from the United States. If you use the app from outside the United States, your information may be processed and stored in the United States or other countries where our service providers operate.

11. Changes to This Privacy Policy

We may update this Privacy Policy from time to time. If we make material changes, we may notify you in the app or by another reasonable method.

The “Last updated” date at the top of this Privacy Policy indicates when it was last revised.

12. Contact Us

If you have questions, requests, or concerns about this Privacy Policy or your data, contact us at:
